Part 2 of 4 – Permanent Water Right Transfer Application Map Requirements Checklist

The transfer application map you submit must include all the required items and match the existing water right map.

Check all boxes that apply.

☑ Yes ☐ N/A	Certified Water Right Examiner (CWRE) stamp and original signature. A digital stamp or seal and signature are acceptable, provided they meet OAR 690-014-0050. **NOTE:** CWRE stamp and signature are not required for substitutions. For a list of CWRE's, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/.
☐ Yes ☑ N/A	If **more than three** water rights are involved, a separate map for each water right is required.
☑	Permanent quality printed with dark ink on polyester film or good quality paper. Maps may also be submitted as a PDF (portable document format) if they meet all other requirements.
☑	The preferred size is 8½ x 11 inches and should be no larger than 30 x 30 inches (one extra map copy is required for 30 x 30 inch maps). To request a waiver for a map larger than 30 x 30 inches, please send an email to mapwaiver@water.oregon.gov.
☑	A north arrow and a legend.
☑	Include the scale, which must be even-numbered and not exceed 1 inch = 1,320 feet. To request a waiver for a map scale that exceeds 1 inch = 1,320 feet , please send an email to mapwaiver@water.oregon.gov.
☑ Yes ☐ N/A	**For uses other than municipal use, quasi-municipal use, and similar uses,** include Township, Range, Section, ¼ ¼, tax lot boundaries (property lines) and tax lot numbers, DLC, Government Lot, and other recognized public land survey lines.
☐ Yes ☑ N/A	**If the use is municipal, quasi-municipal, or similar uses,** include Township, Range, Section, and service area boundaries. The map must also identify quarter-quarter (¼ ¼) sections but does not need to label the ¼ ¼.
☑	Major physical features including rivers, creeks, streams, lakes, reservoirs, ponds, roads and railroads. For any surface water on the map, indicate the direction of flow.
☑	All point(s) of diversion (POD for surface water), point(s) of appropriation (POA for wells/groundwater), or dam location(s) (or center of reservoir(s) if no dam exists) authorized by the water right(s), clearly labeled, shown by distance and bearing, or by coordinates (distance north/south and distance east/west) from a recognized public land survey corner (this information can be found in the water right certificate or decree.) In addition, include latitude and longitude for each POD or POA in degrees-decimal with five or more digits after the decimal (example – 44.53764°) and the datum used (example – NAD 83, NAD 27 or WGS 84).
☑ Yes ☐ N/A	If a change in POD or a change in POA is proposed, include the proposed location(s), clearly labeled, shown by distance and bearing, or by coordinates (distance north/south and distance east/west) from a recognized public land survey corner. In addition, include latitude and longitude for each POD or POA in degrees-decimal with five or more digits after the decimal (example – 44.53764°) and the datum used (example – NAD 83, NAD 27 or WGS 84).
☑	General location of main canals, ditches, flumes, pipelines, pumps, or other water delivery features used to transport water from the point(s) of diversion, point(s) of appropriation, and/or reservoir/pond to the place of use, including delivery features at the place of use.
☑	Place of use (POU) by Township, Range, Section, and ¼ ¼, that includes separate hachuring for lands affected by changes proposed in this transfer application, for lands left unchanged and not affected by this transfer application, for each water right, for each priority date, for each use, and served by each point of diversion (POD), point of appropriation (POA), and/or reservoir/pond (POD).
☐ Yes ☑ N/A	For a POU limited to a point, like a stock watering tank, include latitude and longitude for the POU in degrees-decimal with five or more digits after the decimal (example – 44.53764°) and the datum used (example – NAD 83, NAD 27 or WGS 84).
☑ Yes ☐ N/A	If the USE is irrigation, nursery, cranberry, or other similar uses with acreage associated with it, the place of use must include the number of acres in each ¼ ¼ section, government lot, or in each ¼ ¼ section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
☐ Yes ☑ N/A	If the use is supplemental irrigation, include the location(s) and water right reference number of the underlying primary right, registration, or claim.

Responsibility for Completion of Changes and Receiving Landowner Information

Check the following box that applies:

☑ The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant. **OR**

☐ The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner. NOTE: Complete the Receiving Landowner Information Table below. **OR**

☐ Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant. NOTE: Complete the Receiving Landowner Information Table below.

☐ Yes ☑ No At this time, are the lands in this transfer application in the process of being sold?

If Yes, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, a Request for Assignment form is required to be submitted to the Department at a later date. If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a properly recorded sale agreement or other document states otherwise.

PROPOSED CHANGES

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):

Change to Surface Water Point(s) of Diversion:

- [x] Point(s) of Diversion (POD) – the proposed POD(s) will replace the existing authorized POD(s)
- [ ] Additional Point(s) of Diversion (APOD) – the proposed POD(s) will be in addition to the existing authorized POD(s)
- [ ] Surface Water POD to Groundwater POA (SW/GW) – proposed POA(s) will replace the existing authorized POD
- [ ] Government Action POD (GOV) – the proposed POD is due to a government action (ORS 540.510(6))

Change to Point(s) of Groundwater Appropriation:

- [ ] Point(s) of Appropriation (POA) – the proposed POA(s) will replace the authorized POA(s)
- [ ] Additional Point(s) of Appropriation (APOA) – the proposed POA(s) will be in addition to the authorized POA(s)

Changes in Place of Use and Character of Use:

- [x] Place of Use (POU) - the proposed changes to the place of use will replace the authorized place of use
- [ ] Character of Use (USE) - the proposed changes to the character of use of the water right will modify the authorized character of use

Substitution:

- [ ] Substitution (SUB) – Substitution of Groundwater Supplemental Irrigation will be substituted for Surface Water Primary Irrigation:

Certificate#	Groundwater supplemental irrigation	Certificate#	Surface water primary irrigation

Supplemental to Primary Use

- [ ] Supplemental Use to Primary Use (S to P) – supplemental groundwater irrigation replaces primary surface water irrigation:

Certificate #	Primary Surface water right to be cancelled

NOTE: If water rights will be cancelled you must submit a signed and notarized voluntary cancellation/ diminution affidavit with your application.

Explain in your own words what you propose to accomplish with this transfer application, and why:

Transferring the area covered by Certificate 24009 and the two Points of Diversion within said cert to area shown on map for the purpose of irrigating park ground within Alton Baker Park.

Also, Transferring Point of Diversions per Certificates 15455 and 14695 to more practical locations from the Willamette River to the Amazon Canoe Canal. Points of Diversions on Willamette River subject to vandalism.

7. I attest, as indicated under either **Item a.** or **Item b.** below, that:

a. Beneficial water use is evidenced by one of the following:

☐ Certificate # _____ confirming beneficial water use to perfect Permit # _____ was issued within the past five years.

NOTE: This cannot be a remaining right certificate.

☐ Certificate # _____ confirming completion of a change in place of use, point(s) of diversion/ appropriation, or character of use authorized under Transfer Application #T-_____ was issued within the past five years.

☐ Part or all of the water right was leased instream at some point within the last five years. The instream lease number is: _____

NOTE: If the entire right proposed for transfer was not leased, then additional evidence of use is needed for the portion not leased instream.

☐ Water has been diverted at the actual current point of diversion for more than 10 years for beneficial use under Certificate # _____ (For Historic POD Transfers).

b. Water was not used in the past 5 years, but the water right is not subject to forfeiture and documentation is attached to support the assertion that the presumption of forfeiture for nonuse would be rebutted under ORS 540.610(2) due to the following:

☐ Consistent with ORS 540.610(2)(e), the period of nonuse occurred during a period of time within which land was withdrawn from use in accordance with the Federal Conservation Reserve Program.

☐ Consistent with ORS 540.610(2)(h), the nonuse occurred during a period of time when I/we was/were using reclaimed water in lieu of using water under the water right.

☐ Consistent with ORS 540.610(2)(j), I/we was/were unable to make full beneficial use of the water because water was not available. During this time I/we had a facility capable of handling the full allowed rate and duty, and I/we was/were otherwise ready, willing and able to beneficially use the entire amount of water allowed under the water right.

☐ Consistent with ORS 540.610(2)(L), the nonuse occurred during a period of time within which the exercise of the water right was not necessary due to climatic conditions. During this time I/we had a facility capable of handling the full allowed rate and duty, and I/we was/were otherwise ready, willing and able to beneficially use the entire amount of water allowed under the water right.

☐ Consistent with ORS 540.610(2)(n), the nonuse of the supplemental water right occurred during a period of time when the primary water right used in conjunction with the supplemental water right was leased as an in-stream water right pursuant to ORS 537.348.

NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. The planning official may choose to complete the form while you wait or return the "Receipt Acknowledging Request for Land Use Information" to you. Applications received by OWRD without the Land Use Information Form, or the signed receipt, will be returned to you. **IMPORTANT:** Please note that while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for OWRD's acceptance of all other applications. Please be aware that your application cannot be approved without land use approval.

This form is NOT required if:

1) Water is to be diverted, conveyed, and used on federal lands only; **OR**

2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
   - **a.** The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
   - **b.** The application involves a change in place of use only;
   - **c.** The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; <u>and</u>
   - **d.** The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application. **NOTE:** For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete the "Receipt Acknowledging Request for Land Use Information" and return it to the applicant.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you previously only completed the receipt for an application for a new permit to use or store water, you will have 30 days from the Public Notice date to complete the Land Use Information Form and return it to OWRD. Your attention to this request for information is greatly appreciated. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or WRD_DL_customerservice@water.oregon.gov.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

☑ Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): PL Public Land 9.2682 R-1 Residential Low-Density 9.2700

☐ Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:

RE: Permanent Transfer Application

The Water Resources Department received your Application for a Permanent Water Right Transfer. Unfortunately, we are unable to accept your application because it does not meet the minimum filing requirements outlined in Oregon Administrative Rules 690-380.

The Department is unable to accept the application as submitted due to the following deficiencies:

- The Evidence of Use Affidavits for Certificates 15455 and 14695 appear to have been partially mixed up. Please go over those two affidavits and correct the certificate numbers for each. In addition, item #6, page 2 for both certificates include information only for Certificate 14695.
- The included fees of $2,457.00 are not sufficient to cover the costs of processing this Permanent Transfer Application. Please see the Fee Calculator print out included with this letter. The total amount needed for processing 3 water rights with a change in Place of Use and Points of Diversion are $5,505.00.

Because we are not able to accept the application at this time, we are also returning the application fees.

If you have questions or concerns, please contact me at elyse.d.hennen@water.oregon.gov or 971-701-5485.

Sincerely,
Elyse Hennen
