

RECEIVED

STATE OF OREGON
WATER RESOURCES DEPARTMENT

MAY 30 1989

REQUEST FOR WRITTEN APPROVAL TO USE CONSTRUCTION METHODS WATER RESOURCES DEPT.
INCLUDED IN THE RULES AND REGULATIONS PRESCRIBING GENERAL STANDARDS SALEM, OREGON
FOR THE CONSTRUCTION AND MAINTENANCE OF WELLS IN OREGON

Before approval can be considered the following questions must be answered.

Requests shall be submitted to the Watermaster Division, 3850 Portland Road, NE, Salem, OR 97310.

Date: 5-27-89

Well Constructor: [Redacted]

11364 Evergreen Rd. N.E., Silverton Ore. 97381

(1) Location of Well: N.W. 1/4 S.W. 1/4 of Section 22,
Township 6 S, Range 2 W, Marion County.

Address at well site or nearest known address: 7094 Labish Center Rd. N.E.
Salem, Ore. 97305

(2) Name and address of Landowner: Dale & Sandra M. Kuenzi
7094 Labish Center Rd. N.E.
Salem, Ore. 97305

(3) The distance to the nearest well and septic drainfield: N.A.
to far to ~~measure~~ ^{measure}

(4) The unusual conditions existing at the well site: Caving formation
around 15 ft. & we have a 12" starter pipe in about
19' below surface & want to use a bentonite slurry

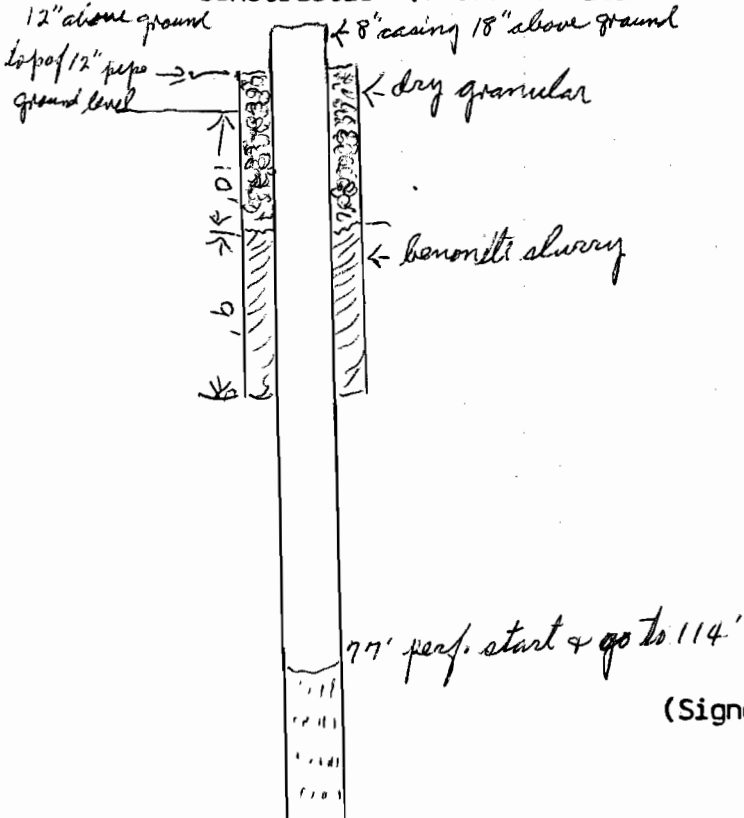

(5) The proposed construction methods that the well constructor or landowner constructing the well believes will be adequate for his particular well:

for the first fill ~~up~~ up in annular space before
we pull the 12" pipe out. This is an 8" well
& is cased to approx 120 ft. We would like to use
dry granular for seal after the 12" pipe is
out. your co-operation in this will be appreciated.

Thank you.

(6) A diagram showing the pertinent features of the proposed well design and construction (attach additional sheet if necessary):

(Signed) Paul R. Stadel
(WELL CONSTRUCTOR)

For Water Resources Department Use Only

Date: 5-30-89

Approved by: [Signature]

Denied by: _____

Remarks: _____

NOTE:

- (1) If approval, all other phases of construction must be in compliance with State Well Construction Standards.
- (2) If it should be determined at some future date that the well, due to its construction, is offering an avenue for pollution of the ground water body, it will be necessary for you to return to the site to correct any well deficiencies.
