FINAL ORDER

Dear Mr. Zollman:

The Special Standards Request Form you submitted for owner: Martin Farms Inc., Start Card number 1042450, is hereby approved for the following: You may remove your drilling machine from this well site due to circumstances outlined on your Special Standards Request Form. ***A stipulation of this Special Standards Request approval is that a drilling machine be returned to the well site to complete the well within 60 days of the date of this letter.*** All other water supply well construction standards apply. A copy of your Special Standards Request Form is enclosed.

Verbal approval of this Special Standards Request was provided on June 10, 2019.

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well, constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.

If you have any questions concerning this letter, I may be contacted at (503) 986-0852, or by e-mail at Joel.W.Jeffery@oregon.gov.

Sincerely,

Joel Jeffery, Coordinator
Well Construction Program
Well Construction and Compliance Section

(5) The unusual site conditions which necessitate this request: 8inch test hole was drilled for irrigation
well. Collected formation cuttings and documented W/B Zones for OWRD. Information has been presented to
OWRD for review of needed casing depths. Needed to move drill rig to other projects while seal depth is determined.

(6) The proposed construction methods that the bonded well constructor believes will be
adequate for this well: (attach additional pages if needed)

The test well has been capped and made safe. Also all W/B Zones have been cemented off to stop comingling of
aquifers. Final aquifer is open. We will present construction method to owner and finish borehole to size as needed.

We plan to be back within a 60 day period to finish the project.
