Seal cannot be completed until test pumping is
completed.

W-SM
sc 23106*

(7) The proposed standards that the water well constructor or landowner constructing the well believes will be adequate for his particular well:

By Oct. 1 Seal will be installed and brought
up to State Standards.

(8) A diagram showing the pertinent features of the proposed well design and construction (attach additional sheet if necessary):

For Water Resources Department Use Only

Date: 9-9-92

Approved by: Bob Main

Denied by: _____

Remarks: _____

NOTE:

- (1) If approved, all other phases of construction must be in compliance with State Well Construction Standards.
- (2) If it should be determined at some future date that the well, due to its construction, is offering an avenue for pollution of the ground water body, it will be necessary for you to return to the site to correct any well deficiencies.
