FINAL ORDER

Dear Mr. Jannsen:

The Special Standards Request Form you submitted for owner: Kevin Duyck Start Card number 213863, is hereby approved for the following: You may remove your drilling machine from this well site prior to completing the well as described on your Special Standards Request Form. ***A condition of this Special Standards Request approval is that a drilling machine returns to the well site to complete the well on or before March 1, 2017.*** All other well construction and abandonment standards apply. A copy of your Special Standards Request Form is enclosed.

Verbal approval of this Special Standards Request was provided on January 24, 2017.

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well, constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.

If you have any questions concerning this letter, I may be contacted at (503) 986-0852, or by e-mail at Joel.W.Jeffery@oregon.gov.

Sincerely,

Joel Jeffery, Coordinator
Well Construction Program
