LEBANON, OR 97355

FINAL ORDER

Dear Mr. Jones:

The Special Standards Request Form you submitted for owner: Bill Radke, Start Card number: 1075318, is hereby approved for the following: You may alter this water supply well (LINN 64529) as described on your Special Standards Request Form dated September 12, 2024. ***The stipulations for this Special Standard Request approval are; the flange must be watertight and the flange must be a minimum 1-foot above land surface.*** A copy of your Special Standards Request Form is enclosed. All other well construction standards must be adhered to

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.

If you have any questions regarding this letter, I may be contacted at (503) 302-8618, or by e-mail at tommy.k.laird@water.oregon.gov.

Sincerely,

Tommy Laird
Well Construction Program Coordinator
Well Construction Section

cc: Ryan Pillsbury, Well Inspector, Northwest Region
Josh Lucas, Well Inspector, Northwest Region

This is a FINAL ORDER other than contested case. This final order is subject to judicial review under ORS 183.484. Any petition for judicial review of the final order must be filed within the time specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Special Standards Request Form

Request for written approval to use construction methods not included in Oregon Administrative Rules 690-200 through 690-240.

Before the request can be considered, this form must be completed. Requests shall be submitted to the Well Construction Program Coordinator. Requests may also be considered by the Well Construction Section Manager or Well Construction Compliance Coordinator.

Note:

(1) The Well Construction Standards serve to protect ground water resources. By approving and issuing special construction standards, the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor or landowner is responsible for ensuring that a well is constructed in a manner that protects groundwater resources as required under Oregon Administrative Rules 690-200 through 690-240.

(2) If it should be determined at some future date that the well, due to its construction, is allowing groundwater contamination, waste or loss of artesian pressure, the undersigned shall return to the site and rectify the problem.

(3) If oral approval was granted, a written request must be submitted to the Department either within three (3) working days of the date of oral approval or prior to completion of the associated well work. Failure to submit a written request as described above may void prior oral approval.

WATER SUPPLY WELL REPORT - Map with location identified must be attached and shall include an approximate scale and north arrow
