FINAL ORDER

Dear Mr. Applebee:

The Special Standards Request Form you submitted for landowner: Stafford Baptist Church, Geoff Hart, Start Card number: 1075969, is hereby approved for the following: You may decommission this water supply well (CLAC 3684/CLAC 76694) as described on your Special Standards Request Form dated November 5, 2024. All other well abandonment standards apply as required under Oregon Administrative Rules 690-220. A copy of your Special Standards Request Form is enclosed.

Approval of this Special Standards Request was provided on November 5, 2024, due to the photos you provided showing the lack of access for a drilling machine to the well location.

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.

If you have any questions concerning this letter, I may be contacted at (503) 302-8618, or by e-mail at Tommy.K.Laird@water.oregon.gov.

Sincerely,

anny

Tommy Laird
