BRANDON BROWN WWC #1766
WATER WELL DEVELOPING AND SURVEYS
P.O. BOX 156
UMATILLA, OR 97882

FINAL ORDER

Dear Mr. Brown:

The Special Standards Request Form you submitted for owner: Bill Stahl, Start Card number: 1077191, is hereby approved for the following: You may decommission this water supply well as described on your Special Standards Request Form dated April 16, 2025. All other well abandonment standards apply as required under Oregon Administrative Rules 690-220. A copy of your Special Standards Request Form is enclosed.

Approval of this Special Standards Request was granted on April 16, 2025, due to the photos you provided showing the lack of access for a drilling machine to the well location and the bent well casing.

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 690-200 through 690-240.

If you have any questions concerning this letter, I may be contacted at (503) 302-8618, or by e-mail at Tommy.K.Laird@water.oregon.gov.

Sincerely,

Tommy Laird
Well Construction Program Coordinator
Well Construction Section

Enclosure

cc: Shaun Finn, Well Inspector, Northcentral Region

This is a FINAL ORDER other than contested case. This final order is subject to judicial review under ORS 183.484. Any petition for judicial review of the final order must be filed within the time specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Special Standards Request Form

Request for written approval to use construction methods not included in Oregon Administrative Rules 690-200 through 690-240.

Before the request can be considered, this form must be completed. Requests shall be submitted to the Well Construction Program Coordinator. Requests may also be considered by the Well Construction Section Manager or Well Construction Compliance Coordinator.

Attachments:

Required Documents:

- Diagram and written description showing the pertinent features of the proposed well design, construction or abandonment. Include any setback constraints.

No images found that matches selected special standard

Note:

- (1) The Well Construction Standards serve to protect ground water resources. By approving and issuing special construction standards, the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor or landowner is responsible for ensuring that a well is constructed in a manner that protects groundwater resources as required under Oregon Administrative Rules 690-200 through 690-240.
- (2) If it should be determined at some future date that the well, due to its construction, is allowing groundwater contamination, waste or loss of artesian pressure, the undersigned shall return to the site and rectify the problem.
- (3) If oral approval was granted, a written request must be submitted to the Department either within three (3) working days of the date of oral approval or prior to completion of the associated well work. Failure to submit a written request as described above may void prior oral approval.
