FINAL ORDER

Dear Steve:

The special standard request you submitted for owner: Moana Nursery, start card number 155751, is approved for the following: removing the drilling machine from the well site prior to completion of the well. The special standard is in effect from July 14, 2003, until July 17, 2003. See Oregon Administrative Rule (OAR) 690-210-0390. Your special standard request form is enclosed.

The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 90-200 through 690-240.

If you have any questions concerning this letter, please contact me at (503) 378-8455 ext. 283, or by e-mail at tracy.l.eichenlaub@wrdd.state.or.us.

Sincerely,

Tracy Eichenlaub

PLEASE NOTE:

- (1) The Well Construction Standards serve to protect ground water resources. By approving and issuing this special construction standard the Oregon Water Resources Department is not representing that a well constructed in accordance with this condition will maintain structural integrity or that it meets engineering standards. The well constructor/or landowner is responsible for ensuring that a well is constructed in a manner that protects ground water resources as required under Oregon Administrative Rules 90-200 through 690-240.
- (2) If it should be determined at some future date that the well, due to its construction, is allowing ground water contamination, waste or loss of artesian pressure, the undersigned shall return to the site and rectify the problem.
- (3) If oral approval was granted, a written request must be submitted to the Department either within three (3) working days of the date of oral approval or prior to the completion of the associated well work. Failure to submit a written request as described above may void prior oral approval.

I have read and understand the above information. I further attest that the information provided is accurate to the best of my knowledge.
