

Application No....9-11333

Permit No.....

STATE OF OREGON WATER RESOURCES DEPARTMENT

RECEIVED

Application for a Permit to Appropriate Ground Water

DEC 26 1984

WATER RESOURCES DEPT
SALEM, OREGON

I, Multnomah County, Oregon

(Name of Applicant)

of..... 2115 S.E. Morrison Street Portland

(Mailing Address)

(City)

State of..... Oregon 97214 Phone No..... 248-5000 do hereby

(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of the construction of a single water well.....

(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 10 inches and an estimated depth of 500 feet.

2. The well or other source is to be located 90 ft. north and 100 ft. east.....

(N. or S.) (E. or W.)

from the corner of center of Section 35.....

(Public Land Survey Corner)

(If there is more than one well, each must be described)

..... being within the S.W. $\frac{1}{4}$ of the N.E. $\frac{1}{4}$ of

Sec. 35 Tp. 1 North R. 2 East....., W.M., in the county of.... Multnomah....

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
1N	2E	35	NW 1/4 NE 1/4	5.62
			SW 1/4 NE 1/4	39.2
			SE 1/4 NE 1/4	39.2
			NE 1/4 NE 1/4	31.7 115.72 Ac.
1N	2E	36	NW 1/4 NW 1/4	39.2
			SW 1/4 NW 1/4	39.2
			NE 1/4 NW 1/4	23.7
			SE 1/4 NW 1/4	13.67 115.77 Ac.
				TOTAL 231.49 Ac.

4. It is estimated that 442 feet of the well will require 10" steel casing.

(Kind)

5. Depth to water table is estimated 210 Well drilled by.....R.J...Strasser..Drilling..Co.....

(Feet)

200' 2
100' 2 10
22' 2 32' 2

6. The amount of water which the applicant intends to apply to beneficial use is 1.1 cubic feet per second or 500 gallons per minute.

7. The use to which the water is to be applied is irrigation of greens and fairways of a public golf course.

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

none

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The irrigation system for Glendoveer Golf Course is supplied by the two water wells. Well no. 1 is being reconstructed under this application. Well no. 2 is located in the S.E. corner of the property. Well No. 2 is approximately 353 feet deep and produces 500 gpm. Both wells will feed a network of 8", 6", 4", and 2" irrigation lines.

11. Construction work will begin on or before.....December 29, 1983.....

12. Construction work will be completed on or before.....July 1, 1984.....

13. The water will be completely applied to the proposed use on or before.....July 1, 1985.....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....Glendoveer Golf Course Well No. 2.....

S.E. 1/4 N.W. 1/4, Section 36, T1N, R2E, W.M.

Application No. 8-11333 *Permit No.* _____

Remarks:.....It is my intent to change the point of appropriation for the water.....right claimed under the Certificate of Registration GR-2883 to a new point located N 77°04' E a distance of 75 feet from the old point. The original well failed due to the intrusion of sand and was formally abandoned on March 5, 1984. I have been informed that I cannot do that, therefore I am filing a new application to make record of this change and to protect my current development in the event such change in appropriation is not allowed in the final adjudication of the groundwater in our area. The application does not waive or abandon any vested right that we may have to the groundwater of this site.

X Tom L. Young

Signature of Applicant

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for.....completion.....

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before.....March 25....., 19.85.....

WITNESS my hand this23rd day of.....January....., 19.85.....

Permit No.....

MAY 1 1985

WATER RESOURCES DE
SALEM, OREGON**Permit to Appropriate the Public Waters of the State of Oregon**

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 11 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from One well (Well No. 1)

The use to which this water is to be applied is irrigation of 231.49 acres

If for irrigation, this appropriation shall be limited to 1/20 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 1, 1985

Actual construction work shall begin on or before and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....

Complete application of the water to the proposed use shall be made on or before October 1, 19.....

WITNESS my hand this day of , 19.....
