

STATE OF OREGON

COUNTY OF

JOSEPHINE

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

ESTATE OF MARILYN L. MOORE

c/o Vivian N. Moore
of 709 Harbeck Rd., Grants Pass, State of Oregon, 97526, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
a spring stream

a tributary of Munger Creek for the purpose of
irrigation of 0.4 acre

under Permit No. 34975 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
October 16, 1970
that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
0.01 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the Lot 4 (NE $\frac{1}{4}$ NE $\frac{1}{4}$), Section 1, T. 39 S., R.
6 W., W. M., 160 feet South and 540 feet West from the NE Corner, Section 1

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 4 $\frac{1}{2}$ acre feet per acre for each acre irrigated
during the irrigation season of each year,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

0.4 acre SE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 36
T. 38 S., R. 6 W., W. M.

In processing the application towards issuance of the permit, it appears that a
clerical error was inadvertently made in limiting the duty of water to 2 $\frac{1}{2}$ acre
feet per acre. With the issuance of this certificate, the duty of water has been
raised to 4 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation
season of each year, in keeping with the customary policy and determination of
this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place
of use herein described and is subject to the existing minimum flow policies established by the
Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed

this date. August 10, 1978

Water Resources Director
