Section 1

T. 29 S., R. 15 W., W. M.

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water for the irrigation of cranberries to not exceed 1/80th of one cubic foot per second per acre and 2 $\frac{1}{2}$  acre feet per acre. In the issuance of this certificate, the duty of water has been raised to 1/40th cubic foot per second per acre and 3 acre feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.
