

STATE OF OREGON

COUNTY OF

WALLOWA

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

DONALD F. BUHLER

of 666 Baker St., Suite 401, Costa Mesa, State of California, 92626, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Stanley Creek

a tributary of Wallowa River for the purpose of irrigation of 0.9 acre and supplemental irrigation of 5.6 acres

under Permit No. 34977 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from October 21, 1969

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.16 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 6, T. 3 S., R. 45 E., W. M., 1150 feet North and 720 feet West from the SE Corner, Section 6

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

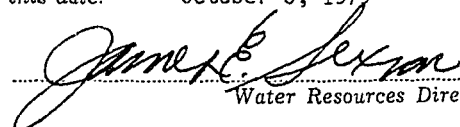

Primary	Supplemental
0.6 acre NE $\frac{1}{4}$ SE $\frac{1}{4}$	5.6 acres NE $\frac{1}{4}$ SE $\frac{1}{4}$
0.3 acre SE $\frac{1}{4}$ SE $\frac{1}{4}$	Section 6
Section 6	T. 3 S., R. 45 E., W. M.
T. 3 S., R. 45 E., W. M.	

In processing the application towards issuance of the permit it appears that a clerical error was inadvertently made in limiting the rate of water to 0.07 cubic foot per second. In the issuance of this certificate, the rate has been increased to 1/40th cubic foot per second per acre in keeping with the customary policy and determination of this office of the proper maximum limit.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed

this date. October 5, 1979

Water Resources Director
