

STATE OF OREGON

COUNTY OF

HOOD RIVER

CERTIFICATE OF WATER RIGHT

This Is to Certify, That FARMERS IRRIGATION DISTRICT

Westside Fire Hall
of 1185 Tucker Rd., Hood River, State of Oregon, 97031, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
Hood River

a tributary of Columbia River for the purpose of
supplemental irrigation of 1,856.2 acres

under Permit No. 34538 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
July 16, 1969
that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
7.5 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 31, T. 2 N., R. 10 E., W. M.,
2250 feet North and 470 feet East from the SW Corner, Section 31

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 3 acre feet per acre for each acre irrigated
during the irrigation season of each year,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

In processing the application towards issuance of the permit, it appears
that a clerical error was inadvertently made in limiting the duty of water
to not exceed 1/80th of one cubic foot per second per acre and 4 acre feet
per acre. In the issuance of this certificate, the duty of water has been
reduced to 1/80th cubic foot per second per acre and 3 acre feet per acre
for each acre irrigated during the irrigation season of each year, in
keeping with the customary policy and determination of this office of the
proper maximum limits.
