

STATE OF OREGON

COUNTY OF BAKER

CERTIFICATE OF WATER RIGHT

This Is to Certify, That DORIK V. MECHAU

of Route 1, Box 98 B, Haines, State of Oregon 97833, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of unnamed stream

a tributary of North Powder River for the purpose of supplemental irrigation of 9.5 acres

under Permit No. 31924 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from August 30, 1966

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.24 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 17, T. 7 S., R. 38 E., W.M.; 890 feet North and 4000 feet East from SW Corner Section 17

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 acre feet per acre for each acre irrigated during the irrigation season of each year

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

9.5 acres SE $\frac{1}{4}$ SE $\frac{1}{4}$
Section 17
T. 7 S., R. 38 E., W.M.

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed one-fortieth of one cubic foot per second per acre and 3 $\frac{1}{2}$ acre feet per acre. In the issuance of this certificate, the duty of water has been raised to one-fortieth cubic foot per second per acre and 4 acre feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed

this date. April 11, 1980

Water Resources Director
