

STATE OF OREGON

COUNTY OF

LINN

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

THOMAS A. and LAVON J. RED

of 26777 Gap Road, Brownsville, State of Oregon 97327, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Red Well 2

a tributary of Courtney Creek for the purpose of supplemental irrigation of 28.6 acres

under Permit No. G-5973 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from December 18, 1973

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.36 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is located in the NW 1/4 NW 1/4 as projected within Blakeley DLC 59, Section 7, T14S, R2W, WM; 280 feet North and 420 feet East from SE Corner, Kirk DLC 37.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year;

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

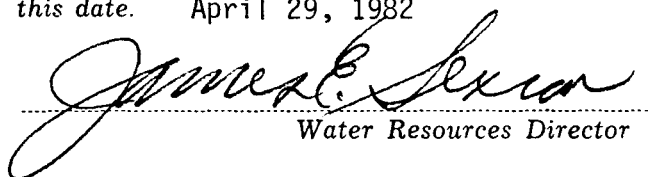

1.8 acres SW 1/4 SW 1/4 as projected within Blakeley DLC 59
 0.1 acre SE 1/4 SW 1/4 as projected within Blakeley DLC 59
 Section 6
 3.8 acres NE 1/4 NW 1/4 as projected within Blakeley DLC 59
 22.9 acres NW 1/4 NW 1/4 as projected within Blakeley DLC 59
 Section 7
 Township 14 South, Range 2 West, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the quantity of water to 0.35 cfs for the supplemental irrigation of 28.6 acres. In the issuance of this certificate, the quantity has been increased to 0.36 cfs in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the Water Resources Director, affixed

this date. April 29, 1982

 Water Resources Director
