

STATE OF OREGON

COUNTY OF

JOSEPHINE

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

MARGARET K. WOOD GOREE

of 1843 Applegate Avenue, Grants Pass, State of Oregon 97526, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of spring-stream, Azalea Ponds 1, 2 and 3 constructed under Permit R-5874 and Azalea Creek a tributary of Louse Creek for the purpose of fish culture and irrigation of 5.9 acres

under Permit No. 36269 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the rights hereby confirmed dates from June 7, 1971

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.08 cubic foot per second, being 0.01 cfs from spring-stream and Pond 1 for fish culture, 0.04 cfs from spring-stream and three ponds for irrigation, 0.03 cfs from Azalea Creek for irrigation

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NW 1/4 NW 1/4, Section 36, T35S, R6W, WM; Pond 1 - 1,100 feet South and 1,250 feet East; Pond 2 - 1,160 feet South and 660 feet East, Pond 3 - 1,130 feet South and 390 feet East, Azalea Creek - 860 feet South and 1,050 feet East all from NW Corner, Section 36

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated from direct flow and shall be further limited to a diversion of not to exceed 4 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from three ponds constructed under Permit R-5874

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

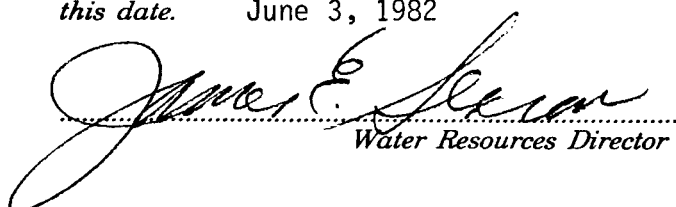

Fish culture and 5.9 acres NW 1/4 NW 1/4
Section 36
Township 35 South, Range 6 West, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed one-eightieth of one cubic foot per second per acre and 2 1/2 acre-feet per acre. In the issuance of this certificate, the duty of water has been raised to one-eightieth cfs and 4 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed

this date. June 3, 1982

Water Resources Director
