

STATE OF OREGON

COUNTY OF

UMATILLA

CERTIFICATE OF WATER RIGHT

This Is to Certify, That

DOUBLE M RANCH, INC.

of Box 38, Adams, State of Oregon 97810, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of a well

a tributary of Umatilla River for the purpose of irrigation of 8.0 acres

under Permit No. G-6790 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from September 27, 1973 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.06 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is located in the NW 1/4 SE 1/4, Section 33, T4N, R28E, WM; 220 feet South and 900 feet East from Center, Section 33.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre-feet per acre for each acre irrigated during the irrigation season of each year; and provided that the completed well shall not exceed 100 feet in depth nor appropriate water from an aquifer below that depth.

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

8.0 acres NW 1/4 SE 1/4
Section 33
Township 4 North, Range 28 East, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the quantity of water to not exceed 0.05 cubic foot of water per second. In the issuance of this certificate, the quantity of water has been raised to 0.06 cfs as originally requested.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.
