In processing the application toward issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed one-eightieth of one cubic foot of water per second per acre and 2 1/2 acre-feet per acre. In the issuance of this certificate, the duty of water has been raised to one-eightieth of one cfs per acre and 4 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described. and is subject to the existing minimum flow policies established by the Water Policy Review Board
