

STATE OF OREGON

COUNTY OF

GRANT

CERTIFICATE OF WATER RIGHT

This is to certify, That J. R. CAMPBELL

of 1467 Marion N.E., Salem, State of Oregon 97301, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Pine Creek

a tributary of John Day River for the purpose of irrigation of 3.8 acres

under Permit No. 43254 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from June 5, 1978 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.10 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SE 1/4 SE 1/4, Section 11, T14S, R32E, WM; 1,470 feet South and 1,700 feet East from the Center of Section 11.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4.0 acre-feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows: 2.5 acres SE 1/4 NE 1/4 1.3 acres NE 1/4 SE 1/4 Section 11 Township 14 South, Range 32 East, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed 1/40th of one cubic foot per second per acre and 5 acre-feet per acre. In the issuance of this certificate, the duty of water has been lowered to 1/40th cubic foot per second per acre and 4 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to minimum flows established by the Water Policy Review Board with an effective date prior to this right.

WITNESS the signature of the Water Resources Director, affixed

this date. September 27, 1984

...../s/.....William.H....Young..... Water Resources Director
