In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in not limiting the duty of water to 3 acre-feet per acre. In the issuance of this certificate, the duty of water is limited to one-fortieth of one cubic foot per second per acre irrigated prior to May 1 and one-eightieth cfs per acre irrigated during the remainder of the irrigation season and 3 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to minimum flows established by the Water Policy Review Board with an effective date prior to this right.
