

## STATE OF OREGON

COUNTY OF

WALLOWA

## CERTIFICATE OF WATER RIGHT

**This is to certify,** That RICHARD H. HAGENAH

of Star Route Box 28, Lostine, State of Oregon 97857, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Lostine River

a tributary of Wallowa River for the purpose of irrigation of 17.8 acres

under Permit No. 43727 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from October 18, 1978 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.45 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NE 1/4 NW 1/4, Section 27, T1S, R43E, WM; 1200 feet South and 120 feet West from the N 1/4 Corner, Section 27.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year.

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

17.8 acres SW 1/4 NE 1/4  
Section 14  
Township 1 South, Range 43 East, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed 1/40th of one cubic foot per second per acre and 3 acre-feet per acre. In the issuance of this certificate, the duty of water has been raised to 1/40th cubic foot per second per acre and 3 1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to minimum flows established by the Water Policy Review Board with an effective date prior to this right.

WITNESS the signature of the Water Resources Director, affixed

this date. August 27, 1985

/s/ William H. Young

Water Resources Director
