

STATE OF OREGON

COUNTY OF

HOOD RIVER

CERTIFICATE OF WATER RIGHT

This is to certify, That

ANTON B. KRIVAK & WILLIAM C. BEACHMAN

3640 Westcliff Drive of 3630 Westcliff Drive, Hood River, State of OR 97031, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of unnamed stream

a tributary of Columbia River for the purpose of irrigation of 1.2 acres

under Permit No. 38940 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from February 5, 1974

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.02 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NW 1/4 SW 1/4, Section 26, T3N, R10E, WM; 420 feet South and 80 feet West from NE corner NW 1/4 SW 1/4 Section 26.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year,

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed 1/80th of one cubic foot per second per acre and 2 1/2 * and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

*acre feet per acre. In the issuance of this certificate, the duty of water has been raised to 1/80th cubic foot per second per acre and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.
