

STATE OF OREGON

COUNTY OF

WASCO

CERTIFICATE OF WATER RIGHT

This is to certify, That CARL R. AND BEVERLY J. ZAPFFE

of 130 S. Dodson Road, Tygh Valley, State of OR 97063, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of an unnamed stream and reservoir constructed under Permit R-6202

a tributary of Threemile Creek (White River) for the purpose of irrigation of 9.0 acres

under Permit No. 38579 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 6, 1975

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.12 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SW 1/4 SW 1/4, Section 10, T4S, R12E, WM; 480 feet North and 250 feet East from SW corner Section 10.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

9.0 acres SW 1/4 SW 1/4
Section 10
Township 4 South, Range 12 East, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed 1/40th of one cubic foot per second per acre and 4.5 acre feet per acre. In the issuance of this certificate, the duty of water has been lowered to 1/40th cubic foot per second per acre and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to minimum flows established by the Water Resources Commission with an effective date prior to this right.

WITNESS the signature of the Water Resources Director, affixed

this date. December 19, 1986

/s/ William H. Young
Water Resources Director
