

STATE OF OREGON

COUNTY OF

WASHINGTON

CERTIFICATE OF WATER RIGHT

This is to certify, That ATSUSHI ENDO

of 2608 SE Marigold, Hillsboro, State of OR 97123, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of one well

a tributary of Tualatin River for the purpose of irrigation of 8.5 acres

under Permit No. G-10437 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from April 18, 1984 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.06 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is located in the SE 1/4 SW 1/4, as projected within H. Nowland Jr. DLC 68, Section 8, T1S, R2W, WM; 20 feet North and 420 feet West from S 1/4 corner Section 8.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

SEE NEXT PAGE

2.4 acres SE 1/4 SW 1/4 as projected within H. Nowland Jr. DLC 68  
Section 8

6.1 acres NE 1/4 NW 1/4 as projected within H. Nowland Jr. DLC 68  
Section 17  
Township 1 South, Range 2 West, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed 1/80th of one cubic foot per second per acre and 3.0 acre feet per acre. In the issuance of this certificate, the duty of water has been corrected to 1/80th cubic foot per second per acre and 2.5 acre feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

*The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.*

*WITNESS the signature of the Water Resources Director, affixed*

*this date. March 6, 1987*
