

STATE OF OREGON

Superseded by
Cert. No. 56347

COUNTY OF

JOSEPHINE

CERTIFICATE OF WATER RIGHT

This is to certify, That EDGAR C. AND PHYLLIS M. OWEN

of 9110 N. Applegate Road, Grants Pass, State of OR 97526, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of a sump well

a tributary of Applegate River for the purpose of irrigation of 7.8 acres

under Permit No. G-8313 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from July 19, 1978 that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.01 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the well. The well is located in the NE 1/4 SE 1/4, Section 21, T37S, R5W, WM; 460 feet South and 780 feet West from E 1/4 corner Section 21.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year, and shall be further limited to the appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

6.7 acres NE 1/4 SE 1/4	1.1 acres NW 1/4 SW 1/4
Section 21	Section 22

Township 37 South, Range 5 West, WM

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed 1/80th of one cubic foot per second per acre and 4.5 acre feet per acre. In the issuance of this certificate, the duty of water has been reduced to 1/80th cubic foot per second per acre and 2.5 acre feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of this office of the proper maximum limits.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the Water Resources Director, affixed

this date. April 24, 1987

/s/ William H. Young
Water Resources Director
