

STATE OF OREGON

COUNTY OF CROOK

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PETER B. KING
10455 MARINE VIEW DRIVE SW
SEATTLE, WASHINGTON 98146

confirms the right to use the waters of CROOKED RIVER, a tributary of DESCHUTES RIVER, for the purpose of IRRIGATING 30.3 ACRES.

The right has been perfected under Permit 47266. The date of priority is OCTOBER 4, 1982. The right is limited to not more than 0.76 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

SW 1/4 NW 1/4, SECTION 20, T 14 S, R 15 E, W.M.; 30 FEET NORTH & 1090 FEET EAST FROM W 1/4 CORNER SECTION 20.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer. A description of the place of use under the right, and to which such right is appurtenant, is as follows:

SEE NEXT PAGE

NW 1/4 NW 1/4 3.0 ACRES
SW 1/4 NW 1/4 27.3 ACRES
SECTION 20
TOWNSHIP 14 SOUTH, RANGE 15 EAST, W.M.

(CERTIFICATE 57614 ALSO INCLUDES THIS LAND BUT IS SUBJECT TO THE
EVENTUAL ISSUANCE OF A CONTRACT BY THE U.S. BUREAU OF RECLAMATION)

This certificate is issued so as to correctly describe the quantity of
water and supersedes certificate 62103, State record of Water Right
Certificates.

In processing the application towards issuance of the permit, it
appears that a clerical error was inadvertently made in limiting the
duty of water to not exceed ONE-EIGHTIETH of one cubic foot per second
per acre and 4.0 acre feet per acre. In the issuance of this
Certificate, the duty of water has been raised to ONE-FORTIETH cubic
foot per second per acre and 4.0 acre feet per acre for each acre
irrigated during the irrigation season of each year, in keeping with
the customary policy and determination of this office of the proper
maximum limits.

The right to the use of the water for the above purpose is restricted
to beneficial use on the lands or place of use described. The right
is subject to minimum flows established by the Water Resources
Commission with an effective date prior to this right.

WITNESS the signature of the Water Resources Director,
affixed this date OCTOBER 24, 1989.

/s/ WILLIAM H. YOUNG

Water Resources Director
