When in the judgement of the watermaster it becomes necessary to install measuring devices:

the pump system shall include an access port for measuring the water level;

the pump system shall include an in-line flow meter or other suitable device for measuring the water to which the wateruser is entitled;

the type and plans of the measuring device be approved by the Watermaster before the beginning of construction work and that the measuring device be installed under the general supervision of said Watermaster.

This certificate is issued to confirm a change in POINT OF APPROPRIATION approved by an order of the Water Resources Director entered FEBRUARY 27, 1989, and together with Certificate 60945, supersedes Certificate 37741, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed MAY 4, 1992.
