SECTION 9

TOWNSHIP 1 NORTH, RANGE 3 WEST, W.M.

When in the judgement of the watermaster it becomes necessary to install headgates and measuring devices:

the diversion works shall include an in-line flow meter, a weir, or other suitable device for measuring the water to which the water user is entitled;

SEE NEXT PAGE

the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

This certificate is issued to confirm a change in PLACE OF USE approved by an order of the Water Resources Director entered MARCH 31, 1989, and together with Certificate 61989, supersedes Certificate 22757, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of CRS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

WITNESS the signature of the Water Resources Director, affixed
