

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROGER AND MARGARET ANNE KNOX
24650 NORTH SANTIAM HIGHWAY
LYONS, OREGON 97358

confirms the right to use the waters of TWO WELLS in the LITTLE PUDDING RIVER BASIN for SUPPLEMENTAL IRRIGATION OF 6.5 ACRES.

This right was perfected under Permit G-11128. The date of priority is JULY 6, 1990. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.08 CUBIC FOOT PER SECOND, BEING 0.04 CFS FROM EACH WELL or its equivalent in case of rotation, measured at the point of diversion from the source.

The wells are located as follows:

WELL NO. 1 - LOT 2 (SW 1/4 NE 1/4), SECTION 10, T 8 S, R 2 W, W.M.; 2830 FEET NORTH AND 550 FEET EAST FROM THE SE CORNER OF DLC 57.

WELL NO. 2 - LOT 2 (SW 1/4 NE 1/4), SECTION 10, T 8 S, R 2 W, W.M.; 2838 FEET NORTH AND 550 FEET EAST FROM THE SE CORNER OF DLC 57.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

	NE 1/4 NE 1/4	0.3 ACRE
LOT 1	(NW 1/4 NE 1/4)	2.7 ACRES
LOT 2	(SW 1/4 NE 1/4)	3.1 ACRES
	SE 1/4 NE 1/4	0.4 ACRE
	SECTION 10	
	TOWNSHIP 8 SOUTH, RANGE 2 WEST, W.M.	

When required by the Department, the water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The water user shall report a March static water level in the wells to the Groundwater/Hydrology Section of the Water Resources Department by April 15 of each year. The measurement shall be made and calculations detailed by a certified water rights examiner, registered professional geologist, certified engineering geologist, professional engineer, licensed well constructor and pump installer licensed by the Construction Contractors Board.

SEE NEXT PAGE

Use of water from the wells shall not be allowed under this right if the wells display an (A) average water level decline of 3 or more feet per year for 5 consecutive years, or (B) a water level decline of 15 or more feet in fewer than 5 consecutive years, or (C) a water level decline of 25 or more feet, or (D) a hydraulic interference of 25 or more feet in any neighboring wells with senior priority which provides water for an authorized use.

The Water Resources Department has determined that the initial water level in the wells are those of the initial March report. That is the level from which the cited declines in (A), (B) and (C) above will be referenced.

The Director may require water level or pump test results every ten years.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The use of water shall be limited when it interferes with the prior SURFACE AND GROUNDWATER rights of others.

Failure to comply with any of the provisions of this right may result in action including, but not limited to restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed MARCH 13, 1996.

 Steven P. Applegate

Martha O. Pagel
