Re: Certificates 75780 and 75807

Dear Mr. Sweet:

The Department issued Certificate 75780 on August 31, 1998, and superseding Certificate 75807 on September 22, 1998, for the purpose of correcting Certificate 15492, which allows diversion from the Elk River for irrigation. It has come to my attention through a "contest" to Certificates 75780 and 75807 submitted by WaterWatch of Oregon and Jim Thurber, that these corrected certificates may have been issued in error.

On the advice of counsel, the Department today is on its own motion withdrawing for reconsideration the corrected Certificates 75780 and 75807. The Water Resources Department will more fully evaluate the circumstances of the certificate correction and will notify you promptly of our decision on reconsideration.

Dick Bailey, the administrator in charge of certificates, will phone you in the next few days to answer any questions or concerns you may have.

Sincerely,

Geoffrey M. Huntington
Deputy Director
