

STATE OF OREGON
COUNTY OF LAKE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ERNESTAND DIXIE SHUFFIELD
P.O. BOX 85
SUMMER LAKE, OREGON 97640

confirms the right to use the waters of A WELL in the ANA RIVER BASIN for the purpose of IRRIGATING 10.1 ACRES.

The right has been perfected under Permit G-9934. The date of priority is NOVEMBER 2, 1982. The right is limited to an amount actually beneficially used and shall not exceed 0.13 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the well.

The well is located as follows:

SW 1/4 NW 1/4, SECTION 24, T 29 S, R 17 E, W.M.; 1600 FEET SOUTH AND 160 FEET EAST FROM THE NW CORNER OF SECTION 24.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

SE 1/4 NE 1/4 10.1 ACRES
SECTION 23
TOWNSHIP 29 SOUTH, RANGE 17 EAST, W.M.

In the event of a request for a change in point of appropriation, an additional point of appropriation or repair of this well, the quantity of water allowed herein together with any other right from this point of appropriation shall not exceed the capacity of this well at the time of perfection.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

In processing the application towards issuance of the permit, it appears that a clerical error was inadvertently made in limiting the duty of water to not exceed one-eightieth of one cubic foot per second per acre and 2 1/2 acre-feet per acre. In the issuance of this certificate, the duty of water has been raised to one-eightieth cubic foot per second per acre and 3 acre-feet per acre for each acre irrigated during the irrigation season of each year, in keeping with the customary policy and determination of the proper maximum limits.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed NOVEMBER 25, 1998.

Martha O. Pagel

Recorded in State Record of Water Right Certificates numbered 75897.
