SECTION 18
TOWNSHIP 21 SOUTH, RANGE 20 EAST, W.M.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. When required by the department, the water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

G-11882.BWB

Certificate Number 79412

In the event of a request for a change in point of appropriation, an additional point of appropriation, or repair of this well, the quantity of water to be allowed, together with the quantity allowed under any other right from this well, shall not exceed the capacity of this well at the time of perfection of this right.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with the prior surface or ground water rights.

WITNESS the signature of the Water Resources Director, affixed March 29, 2002.
