

STATE OF OREGON
COUNTY OF DOUGLAS
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

RICHARD L. AND WANDA I. GILLIAM
1676 TISON R.
TILLER OR 97484-9718

confirms the right to use the waters of FLAT CREEK, a tributary of ELK CREEK, for LIVESTOCK AND DOMESTIC USE EXPANDED FOR ONE HOUSEHOLD.

This right was perfected under Permit 52629. The date of priority is JUNE 15, 1992. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.015 CUBIC FOOT PER SECOND (CFS), BEING 0.005 CFS FOR LIVESTOCK USE AND 0.01 CFS FOR DOMESTIC USE EXPANDED DURING THE PERIOD FROM JANUARY 1 THROUGH APRIL 30 OF EACH YEAR, AND FURTHER LIMITED TO 0.005 CFS FOR HUMAN CONSUMPTION DURING THE PERIOD FROM MAY 1 THROUGH DECEMBER 31 OF EACH YEAR, or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

SW 1/4 SW 1/4, SECTION 33, TOWNSHIP 31 SOUTH, RANGE 1 WEST, W.M.; 102 FEET SOUTH AND 455 FEET WEST FROM THE SW 1/16 CORNER OF SECTION 33.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

NW 1/4 SW 1/4
SW 1/4 SW 1/4
SECTION 33
TOWNSHIP 31 SOUTH, RANGE 1 WEST, W.M.

Measurement, recording and reporting conditions:

- A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60 days of the date of service.

Once installed, the water user shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.

- B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

The water user shall install, maintain, and operate fish screening to prevent fish from entering the diversion. The water user shall also maintain a fishway that will provide adequate upstream and downstream passage for fish. The required screen and fishway are to be in place, functional, and approved by Oregon Department of Fish and Wildlife. The water user shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream unless an ODFW approved fishway is provided.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The right to the use of the water for the above purpose is restricted to beneficial use without waste on the lands or place of use described. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

The Director finds the use of water described by this right, as conditioned, will not impair or be detrimental to the public interest.

WITNESS the signature of the Water Resources Director, affixed September 25, 2002.

Paul R. Cleary
