

STATE OF OREGON

COUNTY OF DESCHUTES

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

JULIA KENNEDY
PO BOX 826
MEDINA, WA 98039

confirms the right to use the waters of A WELL in the DESCHUTES RIVER BASIN for SUPPLEMENTAL IRRIGATION OF 37.4 ACRES AND WILDLIFE USE.

This right was perfected under Permit G-13107. The date of priority is OCTOBER 24, 1995. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.365 CUBIC FOOT PER SECOND(CFS); BEING 0.365 CFS FOR SUPPLEMENTAL IRRIGATION AND 0.02 CFS FOR WILDLIFE USE, or its equivalent in case of rotation, measured at the well. The period of use under this right for supplemental irrigation is April 1 to November 1 each year. The use of water for wildlife may be made at any time of the year.

The well is located as follows:

SW 1/4 SE 1/4, SECTION 27, TOWNSHIP 16 SOUTH, RANGE 11 EAST, W.M.; 850 FEET NORTH AND 250 FEET EAST FROM THE SOUTH 1/4 CORNER OF SECTION 27.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. This right is limited to any deficiency in the available supply of any prior right existing for the same land.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

NW 1/4 SE 1/4 12.0 ACRES
SW 1/4 SE 1/4 25.4 ACRES AND WILDLIFE USE
SECTION 27
TOWNSHIP 16 SOUTH, RANGE 11 EAST, W.M.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60 days of the date of service.

Measurement, recording and reporting conditions:

- A. The water user shall install a meter or other suitable measuring device as approved by the Director. The water user shall maintain the meter or measuring device in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

Use of water under authority of this right may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The Director may require water level or pump test results ever ten years.

Failure to comply with any of the provision of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

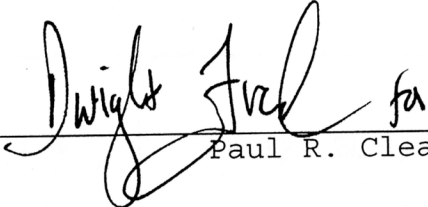

The right to use water for the above purpose is restricted to beneficial use, without waste, on the lands or place of use described. The water user is advised that new regulations may require use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds the use of water described by this right, as conditioned, will not impair or be detrimental to the public interest.

WITNESS the signature of the Water Resources Director, affixed December 20, 2002.

Paul R. Cleary

Recorded in State Record of Water Right Certificates Number 79719.
