

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

HAZEL E. GODWIN, TRUSTEE
HAZEL GODWIN FAMILY TRUST
464 PINEY HILL LANE
TILLER, OR 97484

confirms the right to use the waters of DOMPIER CREEK, a tributary of SOUTH UMPQUA RIVER, for DOMESTIC USE INCLUDING IRRIGATION OF UP TO ½ ACRE LAWN AND NON-COMMERCIAL GARDEN FOR ONE HOUSEHOLD.

This right was perfected under Permit 53299. The date of priority is MAY 23, 1996. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.01 CUBIC FOOT PER SECOND (CFS); AND FURTHER LIMITED TO 0.005 CFS, NOT TO EXCEED A TOTAL VOLUME OF 325 GALLONS PER DAY, FOR HUMAN CONSUMPTION ONLY DURING THE PERIOD FROM JUNE 1 THROUGH NOVEMBER 30 OF EACH YEAR, or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

SE 1/4 NW 1/4, SECTION 23, TOWNSHIP 30 SOUTH, RANGE 2 WEST, W.M.; 288 FEET NORTH AND 997 FEET WEST FROM THE CENTER 1/4 CORNER OF SECTION 23.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

SE 1/4 NW 1/4
SECTION 23
TOWNSHIP 30 SOUTH, RANGE 2 WEST, W.M.

Measurement, recording and reporting conditions:

- A. The water user shall install a totalizing flow meter. The meter shall be sufficient to determine the actual rate of diversion at any time and the total volume of water diverted over a particular period of time. The meter shall be designed and installed to the satisfaction of the watermaster.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review of the order must be filed within the 60 days of the date of service.

- B. The water user shall maintain the meter in good working order, and shall allow the watermaster access to the meter at any time. If the meter is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. During the period of June 1 through November 30 of each year the water user shall keep a complete record of the rate and volume of water diverted from Dompier Creek each month and submit a report which includes this information to the Department annually or more frequently as may be required by the Director.

The water user shall install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the diversion. The required screen and by-pass devices are to be in place, functional, and approved by Oregon Department of Fish and Wildlife.

If the riparian area is disturbed during development or maintenance of the diversion, the water user shall be responsible for restoration and enhancement of such riparian area.

The use may be restricted if the quality of the source stream, namely the South Umpqua River, decreases to the point that it no longer meets state and federal water quality standards due to reduced flows.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The right to the use of the water for the above purpose is restricted to beneficial use without waste on the lands or place of use described. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

The Director finds the use of water described by this right, as conditioned, will not impair or be detrimental to the public interest.

Issued August 27, 2003.

Paul R. Cleary, Director
Water Resources Department

Recorded in State Record of Water Right Certificates Number 80160.
