A scrivener's error was found in Water Right Certificate 79542, issued to describe the water right NOT modified by an order of the Water Resources Director entered July 2, 2002, approving Transfer Application 9019. The certificate describes 3.73 acres of irrigated land in the SE¼ SE¼, as projected within Pullen DLC 44, Section 19, Township 1 North, Range 3 West, W.M.. The correct amount of irrigated land is 3.75 acres. This superseding certificate correctly describes all portions of the water right confirmed by Water Right Certificate 79542, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered SEP 29 2003, approving Transfer Application 9310.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources
Director, affixed SEP 29 2003.
