THIS CERTIFICATE ISSUED TO

This right was perfected under Permit 23161. The date of priority is AUGUST 19, 1954. The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2-1/2 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

AS PROJECTED WITHIN J. GRIBBLE DLC 38  
SECTION 21  
TOWNSHIP 4 SOUTH, RANGE 1 EAST, W.M.

This use may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of this right or as those quantities may be subsequently reduced.

This certificate describes that portion of the water right confirmed by Certificate 76795, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered September 19, 2005, approving Transfer Application 9938.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director,
