

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

STATE OF OREGON

COUNTY OF KLAMATH

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

WARREN W HAUGHT
ANNA HAUGHT
PO BOX 71
MALIN, OREGON 97632

This Certificate confirms the right to use the waters perfected under the terms of the Permit. The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed the amount described, or its equivalent in case of rotation, measured at the point of diversion from the source. The specific limits and conditions of this right are listed below.

APPLICATION FILE NUMBER: G-13219

PERMIT NUMBER: G-12590

SOURCE OF WATER: A WELL LOCATED IN THE LOST RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 126.7 ACRES

MAXIMUM RATE ALLOWED: 1.58 CUBIC FEET PER SECOND

PERIOD OF USE: MARCH 1 THROUGH SEPTEMBER 30

DATE OF PRIORITY: DECEMBER 16, 1992

G-13219.GC

Certificate Number 81751

THE POINT OF APPROPRIATION IS LOCATED AS FOLLOWS:

NE 1/4 SE 1/4, SECTION 30, TOWNSHIP 40 SOUTH, RANGE 12 EAST, W.M.;
1330 FEET NORTH AND 1310 FEET WEST OF THE SE CORNER OF SECTION 30.

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SW 1/4 SW 1/4	20.6 ACRES
SE 1/4 SW 1/4	36.1 ACRES
SW 1/4 SE 1/4	30.0 acres
SECTION 29	

SW 1/4 SE 1/4	14.0 ACRES
SE 1/4 SE 1/4	26.0 ACRES
SECTION 30	

TOWNSHIP 40 SOUTH, RANGE 12 EAST, W.M.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

In the event of a request for a change in point of appropriation, an additional point of appropriation or alteration of the appropriation facility associated with this authorized diversion, the quantity of water allowed herein, together with any other right, shall not exceed the capacity of the facility at the time of perfection of this right.

This right is limited to any deficiency in the available supply of any prior right existing for the same lands.

Limited Water Level Decline/Interference Condition

To monitor the effect of water use from the well(s) authorized under this right, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of **March**. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of 3 or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non or restricted use shall continue until the annual water level rises above the decline level which triggered the action or until the Department determines, based on the water users and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to

occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

STANDARD CONDITIONS

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The Department may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The right to the use of the water for the above purpose is restricted to beneficial use without waste on the lands or place of use described. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued December 5, 2005.

Phillip C. Ward, Director
Water Resources Department

Recorded in State Record of Water Right Certificates Number 81751.
