

STATE OF OREGON
COUNTY OF CLACKAMAS
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

GUY KITCHEN
46530 SE HWY 26
SANDY OR 97055

confirms the right to store water perfected under the terms of Permit R-13121. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION NUMBER: R-84641

SOURCE: A SPRING, A TRIBUTARY OF BEAVER CREEK

STORAGE FACILITY: CEDAR SPRINGS POND

PURPOSE or USE: STOCKWATER, WILDLIFE, AND WETLAND ENHANCEMENT

MAXIMUM STORAGE VOLUME: 0.92 ACRE FEET

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: JANUARY 1 THROUGH FEBRUARY 28, AND DECEMBER 1 THROUGH DECEMBER 31 OF EACH YEAR.

DATE OF PRIORITY: JANUARY 18, 2001

THE MAXIMUM HEIGHT OF THE DAM SHALL NOT EXCEED 3.00 FEET

DAM LOCATION:

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
2 S	5 E	WM	27	SW NW	470 FEET NORTH & 500 FEET EAST FROM W1/4 CORNER, SECTION 27

The area submerged by this reservoir is as follows:

Twp	Rng	Mer	Sec	Q-Q
2 S	5 E	WM	27	SW NW

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

CONDITIONS OF USE

1. Measurement, recording and reporting:

A. The Director may require the water user to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the water user to install a meter or other measuring device, the water user shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the water user shall maintain the meter or measuring device in good working order, and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the water user to submit alternative measuring procedures for review and approval.

B. The Director may require the water user to keep and maintain a record of the amount (volume) of water used, and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use, and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

2. The storage of water allowed herein is subject to the maintenance of an outlet pipe, or the provision of other means to evacuate water when determined necessary by the Director to satisfy prior downstream rights.
3. The water user shall pass all live flow outside the storage season described above.
4. This right does not provide for the appropriation of water for any out-of-reservoir uses, the maintenance of the water level, or maintaining a suitable freshwater condition. If any water is used for out-of-reservoir uses, or any live flow is appropriated to maintain either the water level or a suitable freshwater condition, a secondary water right is required.
5. Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.
6. This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
7. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
8. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
9. This right does not authorize the water user to interfere with or affect adjacent property not under the ownership of the water user.
10. The user shall maintain and operate fish screening meeting Oregon Department of Fish and Wildlife specifications to prevent fish from entering the proposed diversion.
11. The user shall maintain and operate fish screening meeting Oregon Department of Fish and Wildlife specifications to prevent fish stocked in the reservoir from escaping to the stream.
12. The user shall comply with a planting plan as prescribed by the Oregon Department of Fish and Wildlife. The user shall provide documentation of completion of the prescribed plan.

13. This use may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of this right or as those quantities may be subsequently reduced.

WITNESS the signature of the Water Resources Director, affixed January 24, 2006.

Phillip E. Ward, Director
