A description of the place of use to which this right is appurtenant is as follows:

NE¼ SE¼  
SECTION 25  
TOWNSHIP 18 SOUTH, RANGE 11 EAST, W.M.

SW¼ NW¼  
SECTION 30  
TOWNSHIP 18 SOUTH, RANGE 12 EAST, W.M.

The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The quantity of water diverted at the new points of appropriation (wells), together with the quantity diverted at the old point of appropriation, shall not exceed the quantity of water lawfully available from the original point of appropriation.

When required by the Department, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

If substantial or undue interference with an existing well used under an existing right, including existing exempt uses, occurs, and such interference can be shown to the satisfaction of the Department to result from the change in the way the water rights are exercised as authorized herein, the use of water from the wells authorized by this right causing the interference shall be regulated to mitigate the interference.

This certificate is issued to confirm a change in POINT OF APPROPRIATION AND CHANGE IN USE approved by an order of the Water Resources Director entered November 4, 1997, approving Transfer 7779.

The right to use water for the above purpose is restricted to beneficial use on the lands or place of use described.

Issued AUG 04 2006

  
Phillip C. Ward, Director  
Water Resources Department
