The quantity of water diverted at the new point of diversion, together with that diverted from the original point(s) of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.

The water user shall maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The water user shall maintain a fish screen or fish by-pass device. The type and plans of the screen or by-pass device must be approved by the Oregon Department of Fish and Wildlife and shall be installed under the supervision of the Department of Fish and Wildlife.

This certificate is issued to confirm a change in POINT OF DIVERSION, CHARACTER OF USE, and PLACE OF USE approved by an order of the Water Resources Director entered MARCH 20, 2003, and together with certificate 79949, supersedes Certificate 24616, State Record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

Issued DEC 29 2006.
