The quantity of water diverted at the new points of diversion, together with that diverted at the old point of diversion, shall not exceed the quantity of water available at the original points of diversion.

NOTICE OF RIGHT TO RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

When required by the Department, the water user shall install and maintain headgates, in-line flow meters, weirs, or other suitable devices for measuring and recording the quantity of water diverted. The types and plans of the headgates and measuring devices must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

This certificate is issued to confirm ADDITIONAL POINTS OF DIVERSION approved by an order of the Water Resources Director entered APRIL 8, 1992, at Special Order Volume 46, Page 193, approving Transfer Application 6435, and together with certificate 67254, supersedes certificate 5713, State Record of Water Right Certificates.

Said right shall be subject to all other conditions and limitations contained in said decree.

The right to the use of water is restricted to the lands and place of use here in described.

WITNESS the signature of the Water Resources Director, affixed JUL 20 2007.

Phillip C. Ward, Director
