The quantity of water diverted at the new point of diversion, together with the quantity diverted at the original point of diversion, shall not exceed the quantity of water available at the original point of diversion.

When in the judgment of the Watermaster it becomes necessary, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Watermaster prior to beginning of construction and the weir or measuring

**NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW**

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

device be installed under the general supervision of the Watermaster.

This certificate is issued to confirm a change in POINT OF DIVERSION approved by an order of the Water Resources Director, entered March 31, 1989, at Special Order Volume 43, Page 123, approving Transfer Application 6030, and together with Certificate 83880, describes the right perfected under Permit 47792.

This certificate correctly describes the remaining right certificate, cancels, and supersedes Certificate 83879.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

Issued APR 04 2008

  
Phillip C. Ward, Director  
Water Resources Department
