When required by the Watermaster, the water user shall install and maintain headgates, in-line flow meters, weirs, or other suitable devices for measuring and recording the quantity of water diverted. The types and plans of the headgate and measuring device must be approved by the Watermaster prior to beginning construction and shall be installed under the general supervision of the Watermaster.

NOTICE OF RIGHT TO RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the original point of diversion.

This right shall be subject to all other conditions and limitations in the decree.

This certificate is issued to confirm a change in POINT OF DIVERSION approved by an order of the Water Resources Director entered December 6, 1983, at Special Order Volume 38, Page 17, approving Transfer Application 5327, and supersedes Certificate 10623, State record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described and is subject to all other conditions and limitations contained in said decree.

Issued JUN 27 2008

Phillip C. Ward, Director
