The right shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The quantity of water diverted from the additional and new points of appropriation, together with that diverted at the old points of diversion, shall not exceed the quantity of water lawfully available at the original points of appropriation.

When required by the Department, the water user shall install and maintain an in-line flow meter or other suitable device(s) for measuring and recording the quantity of water diverted. The types and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

This certificate is issued to confirm changes in PLACE OF USE AND POINT OF DIVERSION approved by an order of the Water Resources Director entered October 12, 2005, at Special Order Volume 67, Page 271, approving Transfer Applications 8900 and 8902, and together with Certificate 82874 supercedes Certificate 57115, State record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Issued APR 03 2009

Phillip C. Ward, Director
Water Resources Department
