When required by the Watermaster, the water user shall install and maintain a weir or other suitable device for measuring the water to which the water user is entitled. The type and plans of the weir or other suitable device must be approved by the Watermaster and shall be installed under the general supervision of the Watermaster.

The quantity of water diverted at the new point of diversion shall not exceed the quantity of water available from the original point of diversion.

This certificate is issued to describe a change in POINT OF DIVERSION approved by an order of the State Engineer entered September 22, 1959, at Special Order Volume 10, Page 168, approving Transfer Application S-121, and together with Certificate 85547, supersedes Certificate 16537, State record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described and is subject to all other conditions and limitations contained in said decree.
