

STATE OF OREGON

COUNTY OF MARION

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DAVID AND REBECCA CAMPBELL  
 PO BOX 167  
 SILVERTON OR 97381

confirms the right to use the waters of two WELLS in the BRUSH CREEK BASIN for SUPPLEMENTAL IRRIGATION of 24.2 ACRES.

This right was perfected under Permit G-13148. The date of priority is JULY 26, 1996. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.30 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the wells.

The wells are located as follows:

| Twp | Rng | Mer | Sec | Q-Q   | DLC | Survey Coordinates   |
|-----|-----|-----|-----|-------|-----|--|
| 6 S | 1 W | WM  | 33  | SW SW | 45  | WELL 1 - 1120 FEET NORTH AND 360 FEET EAST FROM SOUTHWEST CORNER OF SECTION 33 |
| 6 S | 1 W | WM  | 33  | SW SW | 45  | WELL 2 - 1180 FEET NORTH AND 350 FEET EAST FROM SOUTHWEST CORNER OF SECTION 33 |

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

| SUPPLEMENTAL IRRIGATION |     |     |     |       |     |       |
|-------------------------|-----|-----|-----|-------|-----|-------|
| Twp                     | Rng | Mer | Sec | Q-Q   | DLC | Acres |
| 6 S                     | 1 W | WM  | 33  | SW SW | 45  | 24.2  |

Measurement, recording and reporting conditions:

- A. The water user shall install a meter or other suitable measuring device as approved by the Director. The water user shall maintain the meter or measuring device in good working order.
- B. The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

This right is limited to any deficiency in the available supply of any prior right existing for the same lands.

If substantial interference with another water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The initial water level in Well No. 2 to which subsequent water levels will be referenced is 61.33 feet below land surface.

- 1) Use of water from Well No. 2, as allowed herein, shall be controlled or shut off if the well displays:
  - a) An average water level decline of three feet per year for five consecutive years; or
  - b) A total water level decline of fifteen feet; or
  - c) A hydraulic interference decline of fifteen feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.
  
- 2) The landowner/appropriator shall be responsible for complying with each of the following requirements for measuring water levels in the well.
  - a) A water level measurement shall be made each year during the period March 1 through March 31.
  - b) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologist, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the landowner/appropriator.
  - c) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
  - d) The landowner/appropriator shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations and shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (2)..

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

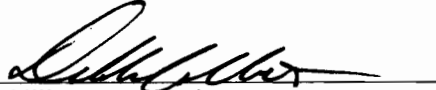

The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

The Director finds the use of water described by this right, as conditioned, will not impair or be detrimental to the public interest.

This certificate describes that portion of the water right confirmed by Certificate 80467, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered NOV 30 2009, approving Transfer Application T-10558.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed NOV 30 2009.

Phillip C. Ward, Director
