NOTICE OF RIGHT TO RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The quantity of water diverted at the new points of diversion shall not exceed the quantity of water available at the original point of diversion under the subject right, and shall not exceed 1.15 cubic foot per second.

When in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices, the diversion works shall include an in-line flow meter, a weir or other suitable device for measuring the water to which the water user is entitled. The type and plans of the measuring device must be approved by the Watermaster before beginning of construction and the weir or measuring device be installed under the general supervision of the Watermaster.

This certificate is issued to confirm a change in CHANGE IN PLACE OF USE AND POINT OF DIVERSION, approved by an order of the Water Resources Director, entered February 9, 1978, at Special Order Volume 30, Page 405, approving Transfer Application 3686, and confirm a CHANGE IN POINT OF DIVERSION, approved by an order of the Water Resources Director entered NOVEMBER 3, 1983, at Special Order Volume 37, Page 560, approving Transfer Application 5295, and together with Certificate 85992 supersedes Certificate 10952, State record of Water Right Certificates.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The use of water allowed herein may be regulated only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

Issued JAN 15 2010
