

STATE OF OREGON

COUNTY OF BAKER

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

FRED & PAT BEYMER
2375 CAMPBELL
BAKER CITY OR 97814

confirms the right to use the waters of FOUR SPRINGS for DOMESTIC USE FOR ONE FAMILY.

This right was perfected under Permit 39435. The date of priority is SEPTEMBER 20, 1974. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.005 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion.

The points of diversion are located as follows:

Spring	Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1	7 S	46 E	WM	22	NE SE	2320 FEET NORTH & 1210 FEET WEST FROM SE CORNER, SECTION 22
2	7 S	46 E	WM	22	NE SE	2255 FEET NORTH & 1155 FEET WEST FROM SE CORNER, SECTION 22
3	7 S	46 E	WM	22	NE SE	1910 FEET NORTH & 1045 FEET WEST FROM SE CORNER, SECTION 22
	7 S	46 E	WM	22	NE SE	1870 FEET NORTH & 990 FEET WEST FROM SE CORNER, SECTION 22

A description of the place of use to which this right is appurtenant is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	DLC
7 S	46 E	WM	22	NE SE		

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

Water Resources Department

STATE OF OREGON

COUNTY OF CURRY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

COVENTRY FARMS LLC
PO BOX 1579
SANTA CLARITA CA 91386-1579

confirms the right to store water perfected under the terms of Permit R-14878. The amount of water used to which this right is entitled is limited to the amount used beneficially and shall not exceed the amount specified, measured at the point of diversion.

APPLICATION NUMBER: R-87022

SOURCE: UNNAMED DRAINAGE AND RUNOFF, TRIBUTARIES TO SUMMERS CREEK

STORAGE FACILITY: RESERVOIR 3

MAXIMUM STORAGE VOLUME: 30.0 ACRE FEET

DATE OF PRIORITY: OCTOBER 31, 2007

WATER MAY BE APPROPRIATED AS FOLLOWS: DECEMBER 1 THROUGH MARCH 31

USE: MULTIPLE PURPOSE

Dam Location/Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
31 S	15 W	WM	33	SE NE	1685 FEET SOUTH AND 945 FEET WEST FROM NE CORNER, SECTION 33

The area submerged by this reservoir is as follows:

MULTIPLE PURPOSE				
Twp	Rng	Mer	Sec	Q-Q
31 S	15 W	WM	33	SE NE

Measurement, recording and reporting conditions:

- A. The water user shall maintain the United States Geological Survey style porcelain enamel iron staff gage style A, C, E or I in good working order. The staff gage shall measure the entire range and stage between full reservoir level and dead pool level in the reservoir.
- B. The water user shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

At some subsequent time of future reservoir maintenance, the permittee shall remove the culvert associated with the outflow to the reservoir (Reservoir 3) and restore the stream channel below the reservoir. If the culvert is removed, the permittee shall prepare a restoration plan to be approved Oregon Department of Fish and Wildlife (ODFW). If it is determined that removing the culvert would result in structural changes to the dam causing safety concerns,, ODFW would not require the removal of the culvert.

The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8" for any in-channel reservoir) or the provision of other means determined by the Department capable of evacuating the water when necessary.

The water user shall pass all live flow outside the storage season described above.

The Director may require the user to measure inflow and outflow, above and below the reservoir respectively, to ensure that live flow is not impeded outside the storage season. Measurement devices and their implementation must be acceptable to the Director, and the Director may require that data be recorded on a specified periodic basis and reported to the Department annually of more frequently.

Notwithstanding that ODFW has made a determination that fish screens and/or by-pass devices are not necessary at this time, the water user may be required in the future to install, maintain, and operate fish screening and/or by-pass devices to prevent fish from entering the diversion, and to provide adequate upstream and downstream passage for fish.

This right allows an annual appropriation (not to exceed the specified volume). This right does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The use may be restricted if the quality of the source stream decreases to the point that it no longer meets state and federal water quality standards due to reduced flows.
